(NORTH WESTERN LINES)

ARRIVALS AND DEPARTURES

OF

PASSENGER TRAINS

PRESTON

18 APRIL 1966 to 5 MARCH 1967

MANCHESTER

T. R. BARRON
Line Manager

NOTES

- (i) Trains must leave at the advertised times whenever practicable but when booked to set down only, may depart as soon as station duties have been completed. Where the advertised departure times of passenger trains are slightly earlier than those shown in the Working Time Table, the former must be used in all quotations to the public.
- (ii) The figures in brackets in the Remarks Column indicate the order of marshalling from the engine of the various portions of the train.
- (iii) The Station Master, Assistant Station Masters and Station Inspectors only are allowed to make any change in the running of the trains to the respective platforms.
- (iv) Small figures indicate passing times.

EXPLANATION OF REFERENCES

M ... Monday	Th ... Thursday
T ... Tuesday	F ... Friday
W ... Wednesday	S ... Saturday

The addition of the letter "O" indicates that the train will run on that day or those days only. The letter "X" indicates that the train will not run on that day or those days.

DMU	— Diesel Multiple Unit.
D	— Stops only to set down.
ECS	} Empty coaching stock train.
†	
L	— Stops only to change engine or trainmen.
‡	— Advertised time in public time table.
Q	— Runs when required.
U	— Stops only to take up.
TL	— Through Line.
*	— Stops or shunts for other trains to pass.
✕	— Full restaurant service.
⊗	— Light refreshments, drinks and hot dishes.
Ⓛ	— Snacks and drinks.
FC	— Sleeping car.

LOADING OF LUGGAGE

GENERAL NOTES

1. Luggage for London, Birmingham, Liverpool, Manchester, Holyhead, or any other terminal point, must be loaded in the front van on through trains, or through portions of trains, unless otherwise shown. Edge Hill traffic to be kept separate from Lime Street traffic.
2. When van accommodation is limited, junction and transfer luggage, if shown to be loaded in the same front van as through traffic, must take preference in loading; the through traffic as laid down in paragraph 1 must be loaded elsewhere.
3. Unless shown to the contrary, roadside traffic must be loaded generally in the rear van with the Guard.
4. Luggage in trains made up of portions from two or more places to two or more destinations must be loaded in the respective brake vans. The object to be kept in view is to minimise transfer and to reduce the number of vans which certain stations have to overhaul.
It must, however, be understood that the printed instructions for correct loading will not relieve the staff of the necessity of seeing that luggage is not overcarried owing to wrong loading.
5. Where it is shown for roadside traffic to be loaded in a van in which the Guard does not travel, the station staff will be responsible for examining the van and seeing that all luggage for their station is taken out.
6. Luggage must not be accepted from the Public unless it is properly labelled to destination with passengers' own labels.
7. All cases of luggage wrongly loaded on arrival or departure must be reported.
8. Waist panels of all vans must be chalked showing where the luggage should be loaded.
9. The Inspector or Foreman must have all luggage placed ready for loading and see that luggage is unloaded from and loaded into the vans and the train despatched before the men leave the train to wait upon passengers.
